DVB-C2 Implementers' Seminar

DVB, ANGA and the ReDeSign Project kindly invite you to participate in the DVB-C2 implementers' seminar, 8 September 2009 in Berlin. The event will be held at the IFA, in Hall 5.3 of the Messe Berlin, Germany.

The seminar will provide a comprehensive overview of all implementation aspects of the new DVB-C2 transmission standard for cable networks. Speakers from silicon manufacturers, professional and consumer equipment suppliers, and cable operators will address the details of the specification, and discuss commercial implementation and roll-out in cable markets.

Cost for participation in the seminar is 100,00 (exclusive 19 % VAT), and includes welcome coffee, lunch, afternoon coffee and dinner, as well as complementary access to the IFA trade show during the same day. The agenda for the event can be downloaded below.

DVB, ANGA and the ReDeSign project look forward to seeing you in Berlin!

As the seminar is fully booked, a registration is no longer possible.
