

ANGA, DVB and the ReDeSign Project

Kindly invite you to participate in the

Implementers' Seminar

8 September 2009

10:00 – 20:00 h

IFA TecWatch, Hall 5.3, Messe Berlin, Germany

The seminar will provide a comprehensive overview of all implementation aspects of the new DVB-C2 transmission standard for cable networks. Speakers from silicon manufacturers, professional and consumer equipment supplier, and cable operators will address the details of the specification, and discuss commercial implementation and roll-out in cable markets.

Cost for participation in the seminar is €100,00 (ex. 19% VAT), and includes welcome coffee, lunch, afternoon coffee and dinner, as well as complementary access to IFA during the same day. Pre-registration for the seminar is required. Registration forms can be downloaded from:

www.anga.de

Further information on DVB-C2 can be obtained from: www.dvb.org and www.ict-redesign.eu.
